

Beauty and Precision

PATIENTS today are better informed and demand beauty and precision. The expectation of patients is increased functionality with esthetically pleasing restorations at a competitive price. Patients want great, boutique laboratory restorations, but are often not willing to accept the cost associated with these restorations.

PROLINE is the answer for the demanding and price conscious patient. Boutique quality at competitive prices from a laboratory with over 40 years of restorative experience, with the quality and service you expect. Reliable, beautiful restorations that increase patient acceptance and keep costs manageable.

ADVANTAGES - Each PROLINE case is assigned to our PROLINE team, comprised of technicians certified and trained in industry leading programs such as Dawson, LVI, and CDT. Each case will be handled by this dedicated team, and will undergo eight different quality control checkpoints during production.

PROLINE REMOVABLES

Each of our PROLINE dentures are hand crafted by expert technicians with years of experience creating beautiful removable prosthetics.

Features:

- Extended 2 year warranty
- Ivoclar Processing
- Ivoclar Phonares II Teeth
